INTRODUCTION

PURPOSE

The United States Travel Service, in an effort to more effectively supply travel data to the industry, has prepared a monthly analysis of foreign visitor arrivals to the United States.

OBJECTIVES

Specifically, the report was designed to meet the following objectives:

(1) Assimilation of available travel market data from other U.S. Government agencies, government tourist offices of other countries, and international travel associations.

(2) Analysis of statistical material highlighting trends and significant events.

METHODOLOGY, SCOPE, LIMITATIONS

(1) Foreign Visitor Arrivals to the U.S.

Data on arrivals are based upon Immigration and Naturalization Service tabulations of Forms I-94, a document which visitors to the United States are required to complete. In addition, tabulations of Forms SW-434 are included in the figures for Mexico so as to reflect all visitors from Mexico, excluding border crossers. Data on Canadian arrivals are provided by Statistics Canada.

The business category includes B-1 visa holders. The pleasure category includes B-2 visa holders. The transit category includes C-1 (aliens in transit) visa holders and C-4 (transit without visa) holders. The student group includes F-1 and F-2 (students and their families) visa holders. The categories reflect the definition of a "tourist" as defined by the official governmental tourist organization, the International Union of Official Travel Organizations and by the tourism committee of Organization for Economic Cooperation and Development.

(2) International Travel Market of Selected Countries

Data for this section are the result of many contributors, primarily international organizations such as the Organization for Economic Cooperation and Development (OECD), the International Union of Official Travel Organizations (IUOTO), the United States Travel Service (USTS) both here and abroad, and national tourist offices of various foreign governments. In addition, data from private industry studies on tourism are included in this publication.

CONCLUDING REMARKS

We hope that the users of this information will keep USTS informed of its usefulness. We would appreciate any comments on either the form or content of the data and any suggestions on how USTS might improve its data and analytical services to the industry.

FOREIGN VISITOR

ARRIVALS TO THE U.S.

Highlights of Foreign Visitor Arrivals to the U.S. June and the First 6 Months 1977

June 1977

During June 1977, international arrivals to the U.S. totaled almost 1.5 million. This figure represents a 2.5% increase over the June 1976 total.

Table 1
Arrivals to the U.S.
June 1977/1976

	June 1977	June 1976	% Change
Overseas	429,719	464,067	-7.4
Mexico	161,127	167,465	-3.8
Canada	878,855	802,755	+9.5
TOTAL	1,469,701	1,434,287	+2.5

Of the total arrivals, 878,855 (60%) came from Canada. Since July 1976, Canadian arrivals have shown consecutive monthly increases over previous year's total, with the June 1977 9.5% increase representing the twelfth such rise in travel to the U.S.

Mexican arrivals in June 1977 displayed a moderate 3.8% decline in volume. Thus far in 1977, travel to the U.S. from Mexico has not dipped to the levels which had been anticipated.

The volume of visitors from overseas countries underwent a decline of 7.4% in June 1977. This decrease was largely due to significant drops in arrivals from European countries (-12.5%), Oceania (-15.9%), and the West Indies (-8.8%). Europe, representing nearly half of total overseas arrivals, contributed most to the overall decline.

The major tourist-generating countries of Europe ,with the exception of the Netherlands, all suffered significant declines in volume during June. Arrivals from the U.K. decreased by 11.0%, Germany 13.3%, France 15.0%, and Italy 20.7%. These declines, however, are not totally unexpected. Most of these same countries in June 1976 experienced atypical increases in volume. Exhibiting a similar pattern were the other European tourist-generating countries of Belgium, Switzerland and Sweden, which showed declines of 11.4%, 18.2%, and 18.8%, respectively. The only major tourist-generating country in Europe that showed an increase in arrivals during June 1977 was the Netherlands (+5.9%).

Total arrivals from Asia declined slightly in June 1977, by 2.3%. Arrivals from the major tourist source in Asia, Japan, decreased by 1.2%.

Oceanian travel to the U.S. suffered a sharp decline in volume (-15.9%) in June. This was largely due to declines in Australian and New Zealand arrivals (down 16.2% and 15.0%, respectively). However, like the major European countries, both Australia and New Zealand had atypical increases in volume in June 1976 (both over 60%), providing an explanation for the drop experienced this June.

South America and Central America were the only major overseas regions that showed increases in travel volumes during June 1977. Central American arrivals increased 3.1%, and South American visitors rose 8.8%. Due to Brazil's restrictive tourism policies, arrivals from Brazil continued to decline, by 45.3% in June. However, this decline was more than offset by dramatic increases in Venezuelan (+47.2%) and Colombian (+28.4%) arrivals.

First 6 Months 1977

Total foreign visitor arrivals for the first 6 months of 1977 surpassed the 8 million mark, representing a 7.1% increase over the total volume reported during the first half of 1976.

Table 2
Arrivals to the U.S.
First 6 Months 1977/1976

	First 6 Months 1977	First 6 Months 1976	% Change
Overseas	1,903,291	1,909,506	- 0.3%
Mexico	928,187	948,221	- 2.1
Canada	5,182,982	4,553,867	+12.1
TOTAL	8,014,460	7,411,594	+ 7.1

Nearly 5.2 million Canadians visited the U.S. during the first half of 1977, an increase of 12.1% over the previous year's figures. This rise in Canadian travel to the U.S. is well ahead of anticipated levels for the year.

On the other hand, Mexican arrivals recorded a 2.1% decline for the January through June 1977 period. However, this decrease is in no way as large as the decline which had been expected due to increase passport costs and the two devaluations of the Mexican peso.

Tourist arrivals from overseas countries numbered approximately 1.9 million during the first 6 months of 1977. This represents a minimal 0.3% decrease from the previous year's figures.

Slight decreases in visitor arrivals were shown by Europe (-3.6%) and Oceania (-3.0%). The West Indies suffered a moderate drop in arrivals of 6.2%.

The main tourist-generating countries of Europe all suffered declines in travel volume during this period. Italy had the most severe decrease (-17.5%), while arrivals from the U.K., France and Germany dropped 5.9%, 3.1%, and 1.2%, respectively. Dutch arrivals, on the other hand, increased 7.1% during the first 6 months of 1977.

The 3.0% decline in arrivals from Oceania in the first half of this year was primarily reflective of the decrease experienced in travel from Australia (-5.3%). Conversely, Asian visitation rose 4.2% in this interval, with Japanese arrivals increasing 3.8%.

South American arrivals exhibited a 2.5% increase over 1976 6-month figures. Despite a 50.5% decrease in arrivals from Brazil, major increases in Venezuelan (+29.8%), Colombian (+16.2%) and Argentine arrivals (+37.7%) led to the moderate increase in total travel from South America.
